VOLUME SEVEN GRENADA, GRENADA COUNTY, MISSISSIPPI, THURSDAY, MARCH 23, 1944

NUMBER THIRTY-FIVE

I will gamble, however, that the honeymoon of free-spending money is over in this area. Whether it may be soon or late, we folks are going to have to start eating on ourselves again.

As this is being read, Kent, Ralph Semmes and I are in Hot Springs, but I am not staying with those plutocrats. They are too fast for a country boy.

Talking about a WPA, we are going to have a WPA raised to the third power after the war, unless somebody is wise enough to do some workable planning for the future.

Another McCormick, this time A. B. has been added to our list of new subscribers.

Well, the State Senate Committee called the last nail on the workmen's compensation bill recently. Just to fill up space, I will say that Mississippi is the only State of the 48 which does not have such a law.

On the streets now, there are mostly civilians for a change.

Tobe Isenberg was seen crying on the curb one day early this week.

Sam Sims has a long way to go to catch up with Cousin Ira's mountaineer.

Our grandbaby spent the week end with us.

AWOL—favorite WAC. I guess I will have to get me another one.

It looks as if the Grenada Army Air Base is definitely abandoned. The WD may change its mind any time and revive it, but this is doubtful.

It is just a lie they are telling on old Junius Townes, that he would not hit a snake if he was fixing to bite Junius. Junius would walk slowly away from the snake.

Aint they sweet.

As hotel accommodations and boarding house rates are so high in Jackson, we may expect a very short session of the legislature. Some of the boys have to make a crop on what is left of the 1,000.00 after expenses are paid.

There are a few of you with 2-44, 1-44 and 3-44 on our mailing list.

Taxi drivers are going to have to toe a tighter line in the future according to regulations recently promulgated by the City Council.

Mrs. Frances McCracken has just returned to duty at Dyre-Kent after an absence of a month spent with her husband, Pfc. Raymond McCracken in Detroit.

Why not do entirely away with the AAA? In a hungry world, take the bridle off the farmers.

Cpl. John Rufus Perry, of Elgin Field, spent a short time with his wife and mother last week end.

Wins Distinction and Wardrobe

Mrs. Donald McLeod, of Jackson, Tenn., was the guest of her mother, Mrs. Mollie McLeod the week end of March 11 and 12. She is a former home demonstration agent of Madison (Tenn.) County, and takes a great interest in all county work. Recently Mrs. McLeod entered a public speaking contest held by Tennessee Farm Bureau at Memphis and was acclaimed winner. This honor came after she had won at a district meeting. The subject "Farm Women Face up to their Responsibilities" was used by all contestants. Mrs. McLeod went from Memphis to a Chicago meeting, winning a complete cotton wardrobe given by the National Council. We congratulate Mrs. McLeod.

Prick Horton, Jr., of Dermott, Ark. spent the week end with his parents and sister.

Mrs. J. E. Bailey and Mrs. Lee visited their invalid friend, Mrs. Murphree, who resides at the home of her daughter, Mrs. Davis, at Cleveland, the past week end.

Sgt. Fred Murray, of Cedar City, Utah, is visiting his parents, Mr. and Mrs. John Murray this week.

Mrs. Porter, of Memphis, arrived this week to visit her daughter, Mrs. Fred White and family.

Mr. and Mrs. J. P. Fisher, of Jones town, and their son, who is in training near Louisville, Ky., spent Thursday of last week here with the Doak family. Mrs. Fisher remained here for a visit through this week.

Pfc. Rufus L. Ingram Killed In Burma

Mrs. R. S. Ingram received a telegram late last week from the War Department that Pfc. Rufus L. Ingram had been killed in Burma, the date

being undisclosed.

Surviving him are his mother who lives in Grenada, his father now in the Veterans' Hospital in Memphis, and five brothers: Franklin and Merritt, of Seabey; Sugus and Trenton, both in the USN, and Benton, a soldier at Camp Shelby.

We offer our sympathy to this splendid family who has given so much to their country in both World Wars.

Grenada A. A. B Causes Speculation

The Army has abandoned the Grenada Army Air Base as a training base for training pilots and crews of the C-47 transports, and is now in only a standby condition under guard, however, civilian workers will work on until April 1st.

We have the information on hand that Representatives Abernethy and Whitten went to bat to have the Navy take over the field, urging Adm. McCall, head of the Naval Air Arm, that the Navy use the field in its proposed expansion program for training Naval aviators, rather than spend more than one million dollars building a new field similar to the one at Grenada. His objection is that the Grenada field is too far from the Coast for Naval training.

A final decision on whether the Navy will take over the Grenada Base is not expected for several weeks.

Fire Destroys Property Wednesday Night

The Mississippi Iron and Metal Co. located on 3rd Street near the I. C. tracks was burned to the ground in the early hours of Thursday, March 23rd.

Mr. Kasteel, owner and manager, lost much of his household goods and accumulated scrap paper, rags and discarded tires. Origin of fire unknown.

The good work done by Grenada Fire Department kept the fire from spreading to the Whitaker Coal Co. property.

Bishop Duncan Gray Confirms Class

Wednesday evening Bishop Duncan Gray, of the Diocese of Mississippi confirmed a class of four and preached at All Saints Episcopal Church. The weather was exceedingly bad Wednesday, so only a small congregation heard him speak.

The subject for his sermon was "The Sign of the Saints."

Tri-State Buses Back On Schedule

The Tri-State Bus strike situation cleared up Tuesday at noon, however, as we go to press the striking Greyhound-Tech drivers and mechanics are still striking.

This strike is said to be a protest against the War Labor Board's delay in approving a contract between their union and the company. The resumption of work at 11 a. m. Tuesday followed a closed conference early Tuesday morning.

Ensign Shep Warner spent a brief leave with his parents recently.

Selected "Miss Personality" All Saints College

In a recent election two young ladies attending school at All Saints College, Vicksburg, received the honor of being selected to represent the college as "Miss Beauty" and "Miss Personality."

MISS CAROLINE WHITAKER

From a group of lovely girls from over the nation two North Mississippi girls were named to receive these coveted titles.

Miss Ruth Brown, daughter of Dr. and Mrs. George Brown, of Water Valley, was named "Miss Beauty" and Miss Caroline Whitaker, of Grenada, daughter of Editor and Mrs. W. W. Whitaker, was named "Miss Personality." Caroline is Editor in Charge of Angel's Record, the College Annual. Both girls graduate in June.

Grenada Red Cross War Fund Needs Your Contribution

Grenada County needs your aid in reaching its American Red Cross Quota of \$20,000.00. County Chairman, Cliff Johnson is asking that every person in the county who has not donated to this worthy cause, please do so at once. We need \$6,773.96 to reach our quota.

Many volunteers have worked hard to raise \$13,830.04. It has been impossible to contact everyone on the drive. If you have not been contacted don't wait for someone to call on you, mail your contribution to R. C. Johnson, Chairman, Box 1028; or bring it to the Mississippi Power & Light office in Grenada.

The American Red Cross is YOU and it is up to you to make a liberal donation so that your Red Cross will be at his side on the battlefields on the Sea and on the Land.

Contributions have been brought in as follows:

Grenada Air Base	\$1300.40
Rural Relief	424.64
Residential	1308.30
Negro Citizens	388.33
Business District	10,334.12
Total	\$12,821.04

Opens Navy Recruiting Office Here

Robert P. Pigford, C/1c USNR, arrived in Grenada Thursday morning and placed in commission the Grenada Navy Recruiting Station located in the Post Office.

Applicants for all branches of the Navy including the WAVES, Ship Repair Unit, Class V-6, 17 year old both white and colored.

Mr. Pigford announces that any 17 year old boy who is now in his last semester of high school may join the Navy and be assured of remaining in school until he finishes.

Visit the Recruiting Station in the Post Office and talk over your problems. Mr. Pigford is a native Mississippian, being from Meridian.

WAVE Applicants at USO

Dear Mrs. Whitaker: Thank you for your card stating that I may interview WAVE applicants at the Community House, U. S. Headquarters on Line Street on March 29, and at the USO New Building on Main thereafter.

I am looking forward to my return trip to Grenada.

Thanks for your cooperation in the matter of securing a place for us to interview WAVE applicants.

Sincerely,

Page M. Davis, S1c, USNR. The above is self explanatory and we urge those young women who are interested in enlisting in the WAVE to remember the date, March 29, and hours 10 a. m. to 5 p. m. at the place USO Headquarters, Line and 3rd Sts.

Everybody Buys Bonds At Camp McCain

Everybody buys bonds at Camp McCain; the Commanding Officer, Col. Ira E. Ryder has just received word that the Camp McCain Bond drive exceeded its splendid record of 99 percent, by going far above 100 percent.

Bonds are purchased by all civilian employees at Camp McCain on a monthly deduction plan, and these employees far exceed the expectations of the military authorities in attaining this fine record.

The outstanding soldier at Camp McCain under the Bond purchasing program is Captain Paul P. Peyton, who is purchasing \$300 worth of bonds each month out of his salary. Captain Peyton, whose home is in Winthrop, Mass., received his commission in 1942, and has served in the Army for over 22 years.

Infantile Paralysis Fund Report

Mrs. Margaret Goodwin, Grenada County Chairman submits the following report and explanation concerning the Infantile Paralysis Drive in Grenada County. Assisting in this drive were Mrs. John Rundle, Mrs. H. L. Honeycutt, Lt. Kroetz, of Camp McCain, and Mr. C. W. Briscoe.

Of the following stated amounts which were collected, in Grenada County, one half is to go to the National fund, one half to stay here in the local fund.

Holcomb school sent their donation direct to President Roosevelt. Money collected at Camp McCain and Air Base was sent to Atlanta and of this fund one half will be returned to local funds the other half to National fund.

Congratulations to the Camp and Base officials, the local chairman and her committee and Grenada Theatre.

The report:

Chain Stores	\$ 24.23
Picture Show	1,035.00
Camp McCain and Air Base	2,940.73
City and County	335.83
Total	\$4,004.79
Expenses were	\$60.79

Deferments Getting More Difficult In Mississippi

All registrants of selective service age 18 to 26 employed in industry will not be deferred for occupations any longer. There is an exception to this rule when most unusual circumstances arise where the local board and state director of selective service concur in a short deferment for such a young man because of the particular job and training of individual in critical industry. Special forms and requests must be submitted through the local board on such registrants who are requested for special deferment, and they must be concurred in by the state director and the local board.

Occupational deferment of registrants 26 years of age and over in CRITICAL INDUSTRIES will be viewed with progressive consideration for their relative irreplacability today and their increase in age.

Colonel L. W. Long, state director of selective service, stated "All registrants now deferred because of occupations who are in this age group are being studied by the local boards, and replacement schedules are being reviewed by state headquarters and critical industry employers with the idea of release of these young men who are physically fit for service."

Mr. R. T. Hamilton Died In Batesville, Miss.

Relatives in Grenada in the Kimbrough family were notified Wednesday of the death of their brother-in-law, Mr. R. T. Hamilton, of Batesville, Miss., who passed away following a long illness of heart trouble. His widow, the former Miss Lillian Kimbrough, native of Grenada, survives. Services were held in Batesville Thursday afternoon.

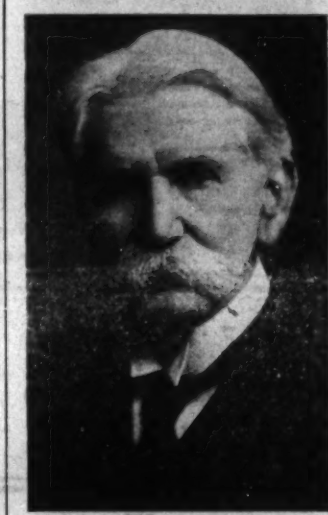

Upon receiving this message, Mrs. Ethel Kimbrough Thiel and Mr. O. L. Kimbrough went to Batesville, and on Wednesday Mrs. Will Ed Boushe, of Grenada, and Mrs. Dewey Harrison, of Winona, sisters of Mrs. Hamilton, went to Batesville Thursday.

Burial was in the Kimbrough plot in Odd Fellows cemetery, Grenada.

Our sympathy is extended to the family.

I nominate Jim Moore of Gore Springs for the best potato raiser (and keeper) in the county.

LAST OF GRENADA COUNTY'S CONFEDERATE VETERANS PASSED AWAY TUESDAY

MR. WILLIAM M. DUBARD

Health Center Project Approved For Grenada

Dr. F. L. McGahey, head of the Grenada County Health Unit received a telegram from Washington, D. C., dated March 20, concerning the erection of a Health Clinic for Grenada on a lot located on Govan Street near the Grenada Hospital, the lot being donated for this project by Dr. J. K. Arent and Dr. F. S. Hill, of Grenada.

The building is to be of brick or concrete, the basement to cover 2800 square feet of floor space. The materials to be used in this building must be released by War Production Board before actual building can be started, but application has been made, and it is expected that work will begin in the near future. The telegram received by Dr. McGahey follows:

Please be advised F. W. A. approval of your Health Center Project. Amount allotted \$29,500. W. P. B. officials have been requested for preference rating certificate. Hope to secure early date.

Edward P. Terry, Secretary to Sen. Theo. G. Bilbo.

Mrs. Grady Green Receives Splendid Appointment

Mrs. Grady Green, the daughter of Mr. and Mrs. W. E. Brunson, of Grenada, was selected from a group of seven applicants to be Executive Secretary of Girl Scouts of America at Phoenix, Ariz., already she has taken one group on a California camping trip. Mrs. Green, a graduate of M. S. C. W., has held positions of importance in Coffeeville, Miss., and at the Bank of Phoenix. Her husband, Sgt. Green, is stationed at Phoenix.

Mr. Ellie S. Chapman, A Splendid Citizen, Died

Funeral services were held in Jackson, Miss., on Monday, March 20 for United States Marshal, Ellie S. Chapman, the former head of Mississippi Alcohol Tax Unit, who was ever vigilant in the enforcement of the Federal liquor laws in the State.

It has been said of Mr. Chapman that even the most desperate moonshiners treated him with fear and respect. His courage was clear-headed and deliberate, and for more than 20 years he labored at what he knew to be a hopeless task of eradicating illicit distilling in Mississippi.

Mr. Chapman's place will be hard to fill.

Red Cross Canteen Corps Attention

We are requested to announce that a meeting will be held on Saturday morning at 10 o'clock in the Community (USO) House of all Grenada County Red Cross Canteen Volunteers, who have had the Red Cross Canteen Corps course, for the purpose of ascertaining what part of this great work the volunteers can do in the local program.

All local women and the wives of army personnel are urged to attend this meeting. The local Red Cross Canteen Corps Chairman, Mrs. H. W. Baker, will be present to greet ladies as they arrive.

I have been feeling like H. and more of it recently. I did not know I had so many muscles to ache.

With Mississippi friends paid their respects to their venerable and last surviving Confederate Veteran in Grenada County on Wednesday of this week as a great crowd of relatives and friends stood at the graveside of that splendid citizen, Mr. William M. Dubard, age 96, who died Tuesday evening at 7:30 at his home on Second Street in the City of Grenada.

His friends were legion among both the white and negro race. He was a Christian gentleman, ever holding high the principles by which he regulated his dealings with his family and friends. It has often been said that one of the greatest compliments to come to man or woman, is the successfulness of the lives of his or her children and both the late Mrs. Dubard and Mr. Dubard were known far and wide for their splendid home and the good citizens who went out from their home.

He had the distinction of being the oldest white citizen in Grenada County.

Mr. Dubard was born on November 8, 1947 near the present Dubard Station in Yalobusha, (later Grenada), County. His father came from Columbia, S. C., and settled near Grenada in 1832. Numerous brothers and sisters pre-deceased him many years ago, including two of whom were killed or died while in the Confederate Army.

In 1863 he joined a unit of the State Militia made up of old men and boys under the command of General J. Z. George. Later the company became a part of the regular Confederate Army as Company G and the Company K, of the Third Mississippi Regiment. It surrendered in 1865 at Greensboro, Alabama, under the command of General Wirt Adams.

It was Mr. Dubard's privilege to witness three great periods in the history of his native Mississippi. As a boy he remembered something of the life of the old South before the War between the States, growing up on a large plantation with numerous slaves. Participating briefly in that war, he returned to the period of reconstruction, when his friends and neighbors had to change from the old to a new form of life, and as a matured and aged man he witnessed the modern age of invention and development. He was possessed of marvelous memory and entertained his friends and acquaintances by the hour telling them of his experiences through the years.

From 1896 when as an eighteen year old boy he functioned as executor of his father's will to the present date, he has been prominent in business and church circles in Grenada County. In 1903 he moved from the country to the City of Grenada to educate his children and he died in the home that he then purchased. He was a member of the Grenada Methodist Church and for many years served as Steward and Trustee of that church.

In 1872 he was married to Miss Annie Beard, daughter of Robert Carter and Cornelia Beard, who were likewise old residents of the community. She died in 1925.

Mr. Dubard operated farms in Grenada and Carroll counties. When his sons were grown, he turned over the management although he maintained a keen interest in farming. Possessed of ample time and leisure, he was one of the best read and posted men in the county. His opinions were always well considered and he exerted for many years a strong influence in the community.

He is survived by the following children: W. V. and L. A. Dubard, of Dubard; Mrs. R. L. Hinds, of Tupelo; Mrs. C. L. Lomax, of Greenwood; Mrs. Ward Allen and Mrs. B. J. Anderson, of Grenada. Twenty grandchildren and thirteen great-grandchildren also survive him.

Services were held at the First Methodist Church on Wednesday afternoon at 4 o'clock by Rev. W. L. Robinson, assisted by Rev. Glen E. Wiley. Six of Mr. Dubard's grandsons acted as pallbearers.

Donald DuBoise Ready To Qualify as Machinist Mate

Bluejacket Donald DuBoise, 19, son of Mrs. Alma DuBoise, Box 110, Grenada, Miss., was recognized as now eligible to qualify for the petty officer rate of aviation machinist's mate, third class in recent graduation ceremonies at the Naval Training School (Aviation) located at the Naval Air Technical Training Center, Navy Pier, Chicago, Ill.

Squire Gray, of Beat Three, honored Grenada with his presence Saturday. He was recently named by Tom Bailey as squire of Beat Three.

Greater Gore Springs

S/Sgt. and Mrs. Fred C. Chamberlain, of Gulfport, are guests of Mr. and Mrs. G. E. Chamberlain.

Mr. and Mrs. W. E. Trussell, of Jackson, spent Sunday night and Monday with their mother, Mrs. L. M. Trussell and sister, Jettie Trussell.

S/Sgt. Verlin (Jimmy) C. Fite, of Fort Benning, Ga., visited his father, Mr. Guy Fite, last week.

Visitors at school Friday were Janelle Hankins, Casella; Janelle Bowen, Tupelo; Vivian Blakely, Red Hill, and Helen Ligon, Arcola.

Guests of Mr. and Mrs. C. L. Trussell and Winfred last week were Mrs. Floyd Finkerton and sons, Thomas and Bobby, Winona; Mrs. Edwin McCorm-

ick, Mrs. Edwin Chamberlain and daughter, Joyce, Grenada.

Mr. and Mrs. Elston Tharpe and daughter, Peggy Ann, and Martha Grace Chamberlain visited Mrs. J. W. Ferguson and children Saturday and Sunday.

Pvt. Marshall Worsham is the guest of his mother, Mrs. Lula Worsham. He has been stationed in the South Pacific.

Mrs. Henry Shaw, of Calhoun City, arrived Saturday to visit Mrs. L. M. Trussell and Jetty. She returned to her home Tuesday.

Mr. and Mrs. J. E. Cantrell and family were happy to have Mr. and Mrs. Marvin Cantrell, of Bruce, as their guests last week. Mr. Cantrell has been discharged from the Navy.

Pfc. Leslie G. Clanton, of Fort Sill,

Okla., visited Mr. and Mrs. Homer Trussell recently. He is the son of Mr. Irby Clanton, of Moorhead.

Homer Dale Trussell was the guest of his uncle, Mr. Pecky Clanton, last week.

Mr. and Mrs. Tilman Rose and Charlotte, of Winona, visited Mr. and Mrs. Griffith Shaw and family recently.

Mrs. Milton Rose, Betty Lee and Bob by Rose accompanied by Billy Shaw, shopped in Greenwood Saturday.

W. H. Clanton, of Ruleville, called on his son, Calvin Saturday en route to Montgomery county on business.

Rev. Oliver Hood, of Slate Springs, conducted a three day students' revival in Gore Springs school this week.

Mr. and Mrs. J. C. Ray moved into their new home Monday. Rex Bingham, of Webster county, visited Billy Shaw Sunday afternoon.

HOME DEMONSTRATION CLUB MET

The Chapel Hill Home Demonstration Club met this month with Mrs. Newt Woods. She invited the club members to come spend the day. As this club is located in a remote section of the county, it welcomes the opportunity for social, as well as business contact with its members.

The members all arrived by 11 o'clock, including Mrs. Velma Neely, Mrs. Charles Swindell, from Grenada.

Pete the Paper Puppet

WANNA SELL SOMETHING?
YA DO? WELL, WE WANNA
SELL IT FOR YOU. YOU
WANT THE SALE AND WE
WANT ADS

and Mrs. Homer Trussell from Gore Springs club. There were 20 present. As dinner hour approached, each guest was asked to draw numbers, indicating the table at which they would dine. There being three tables served. A delicious chicken dinner, with all the "trimmings" was enjoyed by all.

After the noon hour, there was an exhibit of crocheting, tufted bed spreads, women's overalls, exchanging of patterns etc.

Mrs. Neely gave a demonstration and Mrs. Griffith Shaw a talk in behalf of the Red Cross.

Games of all kinds were played. The prize of the regular contest was won by Mrs. Howard James, being a lovely bottle of perfume.

The club dispersed at five o'clock.

The all-day meeting was a great success of pleasure and inspiration for this contact with their fellowman.

Contributed.

MOOS OF THE MOMENT

BY UNCLE BOB

of the Kraft Dairy Farm Service

If you want to buy feed on a scientific financial basis, you ought to get acquainted with "Belinda," the wonder cow. ("Belinda" is the pen name used by dairy experts at Michigan State College.)

In addition to being an accomplished letter-writer, "Belinda" now proves herself a mathematical whiz. She has developed a device that automatically tells the comparative price values of feeds for dairy cows when such feeds are used in a balanced ration. All you need is a ruler to tell whether the price of a feed is too high, "O.K.," or a bargain. To secure this device, write to Michigan State College, Dairy Extension, East Lansing, Michigan. Ask for the Dairy News Letter for October-November, 1943.

Now that we've talked about your calf's mother, let's talk about his fodder.

Point 8 in the government 78-point program for more milk production is the raising of calves with less milk. By starting calves on grain and hay at 2 weeks of age and by using home-mixed or approved calf meals, the whole-milk feeding period can be shortened and more milk can be sent to market.

For practical help on this subject, write the Agricultural Extension Service, University of Nebraska, Lincoln, Nebraska.

It will also be worth your while to send for Circulars 336 and 308, issued by the College of Agriculture, University of Wisconsin, Madison, Wisconsin.

Well, I always say a calf is just one thing after an udder.

Speaking of udders, there seems to be more mastitis (garget, mammitis) about than ever before. So don't be too sure that some of your cows aren't infected. The safe thing to do is to check right now with thybromol or a strip cup. If your veterinarian is equipped to run a Whiteside or Hotis test, so much the better. Both Missouri and Wisconsin have booklets on this subject. Write for Circular 385, Agricultural Extension Service, University of Missouri, Columbia, Missouri. Write the Extension Service of the College of Agriculture, University of Wisconsin, Madison, Wisconsin, for their Special Circular on preventing mastitis.

When you look at the 1944 milk production goal of 102% over 1943, it looks pretty difficult.

But all the reasons why it can't be done look very small compared to just one reason why it must be done. That reason is that your country needs the milk and the products made from it, and a good share of it is needed for your sons and relatives in the service.

A good pasture will produce milk cheaper than any other way, so it is important that we take care of our pastures as never before. Good pasture care means proper preparation, fertilization, fencing and—above all—controlled grazing. If cattle are allowed to graze too early, they tear up two plants for every one eaten. If they graze too closely, the plants cannot make sufficient root growth. To set up and maintain a good system of temporary and permanent pasture, your Uncle Bob suggests that you write for Extension Circular 234, Extension Service, Alabama Polytechnic Institute, Auburn, Ala.

I'm always a little amazed when I run into a dairy farmer who is trying to battle out his problems all by himself. So much wasted effort and money, too, could be saved, if he would write to our State College of Agriculture. Experiments have been conducted and literature is available on almost any subject you can think of. The combined talent and experience of many capable men is available for the asking, so why not ask?

If you haven't got storage space for all the silage you'd like to plan on having this summer, you'll be interested in a circular from the Extension Service of Mississippi State College. This circular points out that you can add to your permanent upright silage space with trench, pit, box or wire fence paper-lined silos. The size of the temporary silos can be adjusted according to the number of cattle you have and the amount of silage you want to store.

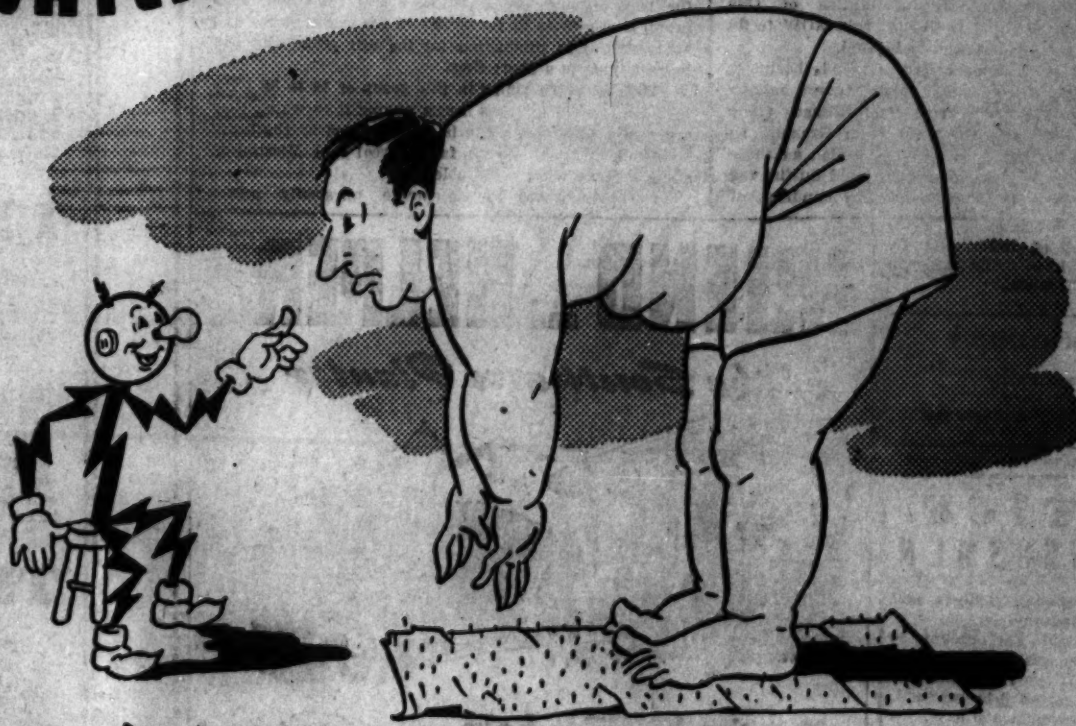

The circular also gives specific instructions for the building of box silos where soil conditions or topography will not permit the use of trench silos. Write for Extension Circular 122, Mississippi State College, State College, Mississippi.

For fodder news, listen in.

*NOTE: There is usually a 5c charge for pamphlets issued to non-residents of a state.

Uncle Bob

WATCH YOUR WASTELINE

DON'T WASTE FOOD OR ELECTRICITY

WASTE delays victory. Take FOOD, for example. It's a war material. Yet our government tells us that the amount of food wasted every year is actually 20% or one-fifth, of all food produced. It also says most of this waste is in the home. Certainly those who are fortunate enough to have electric refrigeration and modern cookery need not contribute to food waste. Your electric servants are built to do an "all out," economical and efficient job in the conservation and preparation of foods.

Remember to take care of your electric servants because Better Care means Less Repair! And Electricity is also a vital war material. It likewise must not be wasted. Any reduction you can safely make in your use of electricity will help conserve fuel, manpower, transportation and critical materials. Use what you need—but be sure to need what you use. Remember—electricity is STILL CHEAP—still serving you at low, before-the-war rates.

THE STATE OF MISSISSIPPI.
To: E. L. Tune, 620 Sixth Street, Port Arthur, Texas:
You are summoned to appear before the Chancery Court of the County of Grenada in said State, on the Third Monday of April, A. D., 1944, to defend the suit No. 5836 in said court of Mrs. Virginia W. Tune, wherein you are a defendant.
This 20th day of March, A. D., 1944.
J. P. Pressgrove, Clerk.
(SEAL) 3-23, 30, 4-6-70w.

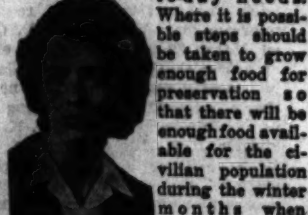

Victory Hints

By FANNIE MAY IZARD
Home Service Director
Mississippi Power & Light Co.

CANNING

Now that almost one-half of all the food used by the average household is rationed, it is evident that each family should take steps to produce enough food for their day-to-day needs.

Where it is possible steps should be taken to grow enough food for preservation so that there will be enough food available for the civilian population during the winter months when there will be even more scarcity of vegetables than will exist during the spring and summer months.

Fresh fruits that are canned retain much of the vitamin content. These that are made into preserves and jellies lose a great deal of their vitamin content because of long cooking periods in open kettles. Because of this fact home-makers are urged to do more canning and less preserving and jellifying this summer.

If you have a pressure cooker by all means use it for non-acid vegetables and meat. But if you do not have a pressure cooker follow the usual precaution in preparing vegetables for processing and then use either the hot water bath or the oven. Both require more time than pressure cookers but satisfactory products can be obtained. Your range will determine which method you will use. If you have a range with a good heat control you will find it much easier, cooler, and more economical to use the oven. If you do not have a controlled oven, use the water bath method of processing. A pressure cooker is not needed for processing fruits and tomatoes. They can be processed by either of the above methods.

Remember that fruit that is allowed to ripen on the tree will be much sweeter with natural sugar than fruits that are picked green. Many of the products you will can will have a much better flavor and color if the space in the jars is filled with juice from the product. Fruits of low sugar content will need to be packed in a sirup. A thin sirup is used on small soft fruits. The medium sirups are used on peaches, sour berries, and sour cherries. Heavy sirups are used on larger sour fruits.

Many housewives can successfully by processing in the oven. A temperature of 275° F. is recommended. Directions as to time should be closely followed. The best results are secured from ovens equipped with heat regulators. These ovens should be tested to see that the temperature control registers accurately. If not, there is a possibility of a much higher temperature being reached, which will cause a loss of liquid through boiling out of partly sealed jars. It may also cause breakage of the jars. Pre-heat oven before putting in the jars and begin counting time when the required temperature is reached.

To process, place the jars two inches apart in a shallow pan in a preheated oven. Do not put water in the pan. Place the pan so as to bring the jars as near the center of the oven as possible. Where using electric oven, do not use the top heating element.

A Substitute for Hell

Somewhere in New Guinea these wounded soldiers await evacuation. Flat on their backs, in the steaming heat of the jungle, where mosquitoes plague the air and ants and mosquitoes torment weary bodies, they dream of home . . . of clean white sheets and the touch of cool, comforting hands. You can help provide modern hospitals and the medicines they need for their recuperation by putting every dollar you can into War Bonds.

USO Notes

Miss Vivian Sell, woman staff assistant, Community House USO is spending a few days with relatives in Chicago and Sheboygan, Wisconsin.

Mrs. C. D. Curtis, associate Regional Supervisor, YMCA, Atlanta, visited Grenada clubs this week.

Mrs. Fannie Reich, Regional Office Traveler's Aid and Mr. L. B. Herbert, Regional Office YMCA are serving as leaders of Training Conference in Grenada this week. The general topic of "How Grenada Meets her War Time

Responsibilities" is one of great interest.

Sunday afternoon a large audience enjoyed the choral group from 302nd Infantry in program at Community House USO. This group of 26 singers, under direction of Sgt. Snodgrass, and Col. Deyere, pianist, can hold interest of any audience. Chaplain Kendall gives supervision to this splendid group.

MRS. DAY ENTERTAINS
On Thursday evening, Mrs. Carl Day Traveler's Aid and Mr. L. B. Herbert, Regional Office YMCA are serving as leaders of Training Conference in Grenada this week. The general topic of "How Grenada Meets her War Time

Hostesses were Mesdames Till Whitaker, Isabel Repony, Edith Swetland, Edna Cooper, Louise Collins and Miss Mary Sperrazza, the assistant director of the USO Club.

The servicemen thoroughly enjoyed the southern hospitality and the accordion selection rendered by Pvt. Jas. David.

ST. PATRICK'S PARTY
A St. Patrick's party was held Friday, March 17th at the USO Women's Division. Mrs. Elsa Nielsen, a volunteer, was chairman.

The unusual decorations, the assorted homemade cakes were in keeping with this special day.
A "check" dance was held. The ser-

vicemen collecting the most "checks" were awarded a prize, a telephone call home. The first prize was won by Pvt. Paul Boutin to Montreal, Canada. The second prize was won by Pvt. Rex J. Wakefield to San Jose, California.

On Tuesday afternoon at 2:30 p. m. Mrs. Eli Whitaker gives instruction in knitting, crocheting and sewing at the NCCS-USO. Last Tuesday the lessons were followed with homemade biscuits and jelly made by Mrs. Annie C. Morgan.

The Main Street USO is happy to announce that our Monday evening dancing class is being taught by Mrs. Barbara Zederman, an Arthur Murray teacher.

A surprise was in store for servicemen and their wives last Thursday. "Joe" of Joe's Spaghetti house donated homemade pies of various kinds to the USO Women's Division. Naturally, the "boy in the service away from home" appreciates homemade pastry or cookies. Such contributions are especially welcome. The USO Women's Division wishes to publicly acknowledge its appreciation for such a fine gesture on the part of a citizen of Grenada, Miss.

That Nagging Backache

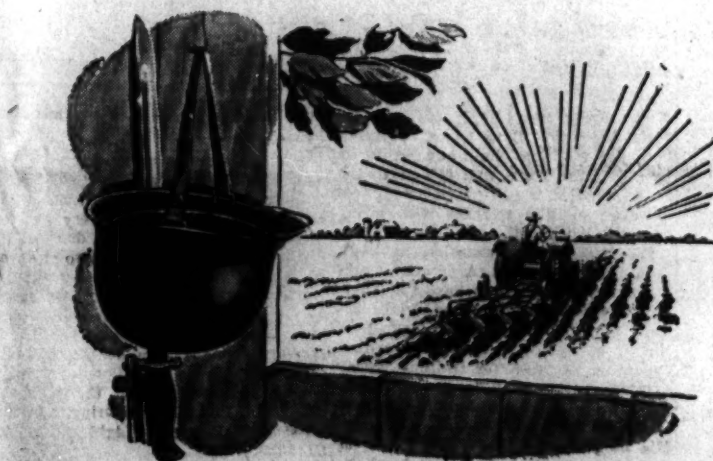

May Warn of Disordered Kidney Action

Modern life with its hurry and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feet constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!

DOAN'S PILLS

Fresh Fields to Conquer

When the day of Victory dawns, when swords are beaten into plowshares again, men will turn from the business of war to the building of peace. They will find Southern fields, farms and forests waiting—rich and fertile—ready to yield new prosperity to the people of the South.

The cotton, sweet potato, peanut, and soy bean industries of the South have made rapid strides during the past decade. Now, through improved methods of cultivation and modern, scientific discoveries developed in response to urgent wartime needs, many of these agricultural products are being put to new uses never before dreamed of.

As a result, new postwar world markets will open up, giving promise of a brighter, more

profitable future for Southern agriculture—the benefits of which will be enjoyed the length and breadth of the entire Southland.

A Greater South Is in the Making

Typical of many progressive Southern industries, Lion Oil Refining Company, through constant research and experimentation, has succeeded in developing and is now producing from Southern crude oil, several components of 100 octane gasoline . . . vastly improved lubricants . . . Butadiene, the basis of Buna-S synthetic rubber . . . ingredients for explosives . . . and other vital materials required for war.

From these activities have come increased employment and expanded payroll. From them will also come post-Victory products destined to contribute materially to the greater industrial and economic advancement of the South!

A partial view of the 200-acre plant in which is produced anhydrous ammonia, a most important ingredient for the making of explosives. This plant, with its tremendous power possibilities for the manufacture of fertilizers and industrial chemicals, is operated by Lion Chemical Corporation, a subsidiary of Lion Oil Refining Company.

EPISCOPAL AUXILIARY

Some of the members of the All Saints Auxiliary spent Monday afternoon at the Red Cross work room. They met at the church at 1:30 and remained at camp until closing time. No other meeting was held, however, on Tuesday morning the Auxiliary held its semi-annual Corporate Communion Service with presentation of United Thank Offering Blue Boxes.

Lt. (j.g.) Shep Warner, U. S. Navy, is at home for a few days visit with his parents.

Lt. Frank Horton is visiting his wife and baby also his parents. Mr. and Mrs. Hurd Horton this week.

T/Sgt. Jack Trussell and wife from the Army Air Base at Carlisle, N. M., are visiting relatives here in the home of Jack's parents, Mr. and Mrs. L. T. Trussell.

MARY ETHEL SCOTT WINS CHEMISTRY MEMBERSHIP PRIZE

At the regular meeting of Gamma Sigma Epsilon, Honorary Chemical Fraternity, held Monday night, Mary Ethel Scott, Junior, Holcomb, was awarded the membership prize of eleven dollars for writing the paper selected as best of the twenty handed in as required for membership in the fraternity.

This paper, which is a discussion on the processes of dehydration in the war and industry today, will be published in The Ray, national publication of the fraternity.

Miss Scott is the daughter of Mr. and Mrs. F. B. Scott, of Holcomb and a granddaughter of Mrs. E. L. Atkinson.

Rev. W. L. Robinson returned home Monday after holding a revival meeting at Corinth, Miss. Methodist Church.

PATRICIA WHITE IS THREE YEARS OLD

Patricia White, the charming little daughter of Mr. and Mrs. Fred White, celebrated her third birthday at her home on South Street on Monday afternoon when twelve little friends came to enjoy the lovely birthday cake and servings in brick ice cream.

Patricia was adorably dressed in a pink powder puff muslin with embroidered trim, and matching ribbon in her hair. She received many attractive gifts, and in her sweet manner, shared her play things with her little guests.

An attractive Easter motif was emphasized and favors were small Easter favors filled with candies. Patricia's birthday was Sunday, March 19.

Mr. J. B. Pittman is now at home convalescent from an operation which she underwent March 11th in Baptist Hospital in Memphis.

Mr. and Mrs. John T. Keeton spent Tuesday evening in Memphis at Hotel Peabody attending merchandise showing of Spring styles and materials as exhibited by wholesale firms.

O. E. S.

The O. E. S. will hold a stated meeting Tuesday night, March 28th beginning at 7:30. Members are urged to attend, and visitors are welcome.

Mrs. Cecil Briscoe, Reporter.

Mr. and Mrs. Ernest Staton had as their guests on Wednesday their sister, Mrs. Charlie King, of Water Valley, and her two handsome children, Miss Evelyn of W. V. and Lt. Ray King, of Drew Field, Tampa, Fla.

Mr. R. C. Trusty attended the style show at the Prubody in Memphis on Tuesday and Wednesday.

Sgt. Ed Norred of Los Angeles, Calif. was a Grenada visitor on Wednesday of this week.

Francis S. Hill, Jr., A/S, of Baltimore, Md., will arrive this week end for a visit with his parents, Dr. and Mrs. F. S. Hill.

Mrs. Otis Benoist and Mrs. Burnell Walker spent Tuesday in Memphis.

Prof. John Rundle, Supt. of City Schools and Mrs. Rundle, also Mrs. Henry Willis, Grenada County Supt. of Education, attended Teachers Association in Jackson last week end.

Recent visitors, all relatives, at the home of Mrs. A. B. Bryant included Mr. and Mrs. Ruby Floyd and Mrs. W. E. Trussell and daughter of Tillatoba; Mrs. Herman Brown and two children, of Memphis, and S/Sgt. and Mrs. Clarence Floyd and son, of Tampa, Fla.

Mrs. Rogers Pleasant is assisting with the work at the Circuit Clerk's office in the absence of Mrs. Chas. Worsham who is recuperating from a case of flu.

Mr. Henry Ray left Tuesday morning to join his wife at the home of their son, Sgt. Henry Ray, Jr. and family at Alexandria, La. for a brief visit. Mr. and Mrs. Ray will return the last of the week.

Mr. and Mrs. Spivey Kent and Mes-
srs. Raphael Semmes, Sr. and Whyte
Whitaker, Sr. left at 9:30 Monday
morning for a stay at Hot Springs,
Ark.

Mrs. Eloise Lee Harris and infant
son, of Winona, enjoyed a visit with
their aunt, Mrs. Andrew Carothers,
last week end.

Seaman 2/c S. O. Patterson, of New
York, attended the bedside of his wife,
Mrs. Ethel Hollis Patterson, who fol-
lowing a very critical illness, has im-
proved. Mr. Patterson left Monday to
return to duty.

No Workmen's Compensation Act This Session

(Mrs. W. W. W.)

Mississippi remains the only State in the Nation without a Workmen's Compensation Act, following the action in the State Senate recently by a vote in which the bill was side-tracked 25 to 23.

Rejection of the proposal came on a motion to indefinitely postpone consideration of a bill patterned after the Arkansas statute and Senate action was in line with a suggestion by Gov. Bailey to one of the proponents that the highly controversial issue be deferred until the 1946 session. In the interim a recess committee is named to study various laws with a view to recommending one "favorable to labor, industry and the people of Mississippi."

The Workmen's Compensation Act has been before the law makers of Mississippi long enough for them to make up their minds on the subject. It's too bad that in the great industrial adjustment period of the next two years, the State will have nothing definite to offer manufacturers.

The Honeymoon About Over (?)

The honeymoon of soldiers' dollars and civilian workers' dollars in this area, according to my opinion, is drawing rapidly to a close. A blind man poking his way along the street with his cane could "see" that.

Far be it from me to attempt to penetrate the necessary secrecy of the War Department's plans I can at least guess what will happen when the 94th has completed its training. I guess that now new division will replace the 94th Division. I can not believe that this hospital or any other complete hospital will be abandoned, for the load on the government hospitals MUST increase greatly, especially as the costly invasion of Europe gets closer and closer. Nor can I believe that the prison camp will remain long tenanted, for, certainly, the number of prisoners will increase as the violence of the war approaches its crescendo. As more trained men are sent overseas, and less men are being put in training, the load on the training areas, such as Camp McCain, will of necessity decrease. The better constructed camps should be used rather than the shabby constructed camps such as McCain.

There is no use for anyone to become panicky. Grenada grew and prospered before the war thrust upon us an unprecedented load. Should my predictions come true, we will have a hang-over, of course, but a hang-over never killed any one. Married couples do not get divorces just as soon as the bliss of the honeymoon passes, but they get their affairs adjusted on a more permanent basis.

Assuming my predictions are true, there are tens of thousands of dollars coming into this area from family allotments, pensions, etc., as well as from the industries of Grenada, none of which have closed. Grenada STILL has, within a 50-mile radius, MORE people than any town in Mississippi. Grenada NEVER has capitalized on the potentialities of this concentration of people, and it should begin NOW to do so, even if such a move is seriously belated.

Assuming my predictions are true, Grenada businessmen and professional men CAN, if they exert enough pressure, capture the trade from its legitimate trade territory and RE-capture the trade from Grenada itself; but this is not going to be an easy job as these kinds of trade have been seriously neglected during the honeymoon. Grenada MUST overcome the handicap of

The high cost of liquor and the scarcity thereof have made many involuntary prohibitionists.

NOTICE BUSINESSMEN

Doctors, Merchants, Schools and Colleges or Individuals, do you have any ad debts (or accounts) or notes that you wish collected? No matter how old, even out-lawed accounts can be collected by my method. Current accounts are easy. Let Fred R. Brown, agent, get the money for you on a percentage basis. Will not cost you one cent unless I collect.

FRED R. BROWN, Agent

132 Minerva Street
JACKSON (43) MISSISSIPPI

Be Quick To Treat Bronchitis

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes.

Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics.

No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. (Adv.)

being called a "high" town. Whether it is a "high" town or not, it has THAT name among the people generally, and, whether true or false, makes no difference until and unless it is disproved.

Grenada small businessmen could take a leaf from the book of experience of the large corporations, none of which have kept their names off the pages of periodicals and off the air. The railroads, for example, advertise, asking people to use transportation only when necessary. The telephone company spends hundreds of thousands of dollars annually, asking people to use its service sparingly. Look at LIFE, TIME, LIBERTY and other national magazines. Millions are spent in the national magazines, not to sell anything, but simply to "keep their names alive." What is sauce for the big goose, is also sauce for the small gander.

Ladies Rest Room

(Mrs. W. W. W.)

According to report from Miss Willie Smith, custodian at the Ladies Rest Room, there were 17,161 visitors at the Rest Room the past 12 months. These guests were patrons of the local stores, theatres, beauty parlors, banks, cafes, or here to attend to business of some sort where money is spent. They represent a group of people whom we, as Grenadians would like to favorably impress. Would you like to know just what they saw at the Ladies Rest Room? Well, I will tell you.

The Rest Room has the drab appearance of an old dirty attic, and we will speak of it as the lounge and the rest room. In the rest room an old "sea grass" rope is attached to the flush basin, a broken, worn seat is on the commode, the lavatory is brown stained from a constantly dripping faucet and recently a motley mirror, evidently a throw-away gift has been added, a wire basket filled with discarded personal equipment, the dirty dark walls, unwashed windows, a pair of decayed blackened curtains and a "broken out" screen completes that picture. There are several hand painted signs on the wall asking for such common decency that it is humiliating to know of people who would violate others' premises.

The "lounge" is just about as bad, filled with junk, heated by a small grate fire, dark smoke stained walls and floors.

Miss Smith is always gracious and pleasant. She is not supplied with a maid or janitor, and does the best with what she has. As I see it, no one could do more, and very few would accept the job.

There isn't much sense in criticism without offering at least a hint of what would constitute an acceptable solution to the problem—as we all know there is a National concern which furnishes locked toilets, also a National concern which furnishes dispensers for paper towels, sanitary napkins, etc.

There is a concern selling liquid soap dispensers, or furnishing them if a specified soap is purchased from that company. These would add the necessary conveniences to a real rest room and lounge.

The city could redecorate at a small cost at least the walls and floors could be painted, making the place seem sanitary and pleasing to the many visitors. Greeneries a better advertisement than the present Rest Room.

What Are We So Proud Of?

I did not write the following. It was written by the State Selective Service System. Read it and weep.

28% of the male population in Mississippi have NOT received more than a fourth grade education. A survey of 426,000 males 18 to 45 reveal that 19,000 white men and 103,000 negro men stopped school at the fourth grade (or below) in this state.

2500 white men and 20,000 negro men between the ages of 18 and 35 have been rejected by the armed forces for lack of sufficient intelligence and education. This group is otherwise fit for service in the armed forces and not essential in production for the war effort and can be reclaimed in a short time.

28% of negro males in this group of 18 to 35 have syphilis and the diseases accompanying it to which they are susceptible. Each one is being treated by the State health department. Such facts reveal that Mississippians are faced with two problems:

(1) Supplying the acceptable physically and

mentally fit men to the armed forces.

(2) Aiding in a program of restoration of the defective to a normal level in a health, education, production and a moral status.

Colonel L. W. Long, state director of selective service, stated that the manpower pool in Mississippi, like that of the nation, has become lower in available physically and mentally fit men, as the demands of the armed forces are met. It is estimated on the basis of one-sixty-fifth of the nation's population that 180,000 men will be required of Mississippi to produce a national army and

navy of more than 11,000,000. Since we have only 367,000 vulnerable men, practically all must be examined to determine those physically and mentally fit for service. The state director estimates that not more than the required 180,000 men can pass the examination even after restoration and rehabilitation of many of the defective by a program of education and medical treatment.

Local selective service boards are forwarding as many men as possible each month for examination so that virtually all men who have not been examined heretofore can be physically examined within the next six months.

Information About New Postal Rates

Increased postage rates and fees for money orders, registered mail and C. O. D. mail are effective March 26, 1944.

New postal rates effective March 26 indicate that it takes 3c instead of 2c to carry a local letter. Air Mail stamps are 8c instead of 6c.

The rate of 6c for each 1/2 oz or fraction thereof, established October 2, 1942 will continue to apply to air mail sent to or by our armed forces of U. S. overseas served through Army and Navy post offices. Air Mail rate to and from the Continental U. S. and its possessions as well as rates applicable between such stations will continue unchanged.

As Major Sullivan said, "Everything is going up now a days."

Pass The Salt Pappy

It is strange that, salt being as important in human life as it is, so little is actually known about it by the average man. It is one of the oldest products on earth. Ever since the beginning of Time has salt played a picturesque part in man's development. Together with air and water, it has formed one of the three foremost needs of human life, and has for that reason influenced the formation of nations and location of cities, been the cause of wars, and given rise to religious beliefs and superstitions as well as to folklore and thousands of proverbs.

I NEED SOME

Science has proved that salt is absolutely essential to normal health—so vitally important, in fact, that if all the salt in our bodies were suddenly removed, we could not live 48 hours—Fortunately, the human body rarely suffers from lack of salt, for Mother Nature wisely implanted in us a craving for it which must be satisfied.

NOT FOR SALARY

I'll take the money for all my salary, but the Roman Legionnaires received part of their pay in salt, and our word "salary" comes from the Latin "salarium", as that part of their wages were known. Even today salt remains the principle medium of exchange in certain SOUTH SEA ISLANDS, and in remote parts of AFRICA.

THE MEDICINE CABINET

The medicinal properties of salt have long been recognized for cleansing open wounds, for relieving sore throat, burns, insect sting, rash, hives, dyspepsia, heart burn and indigestion, constipation, aching and tender feet and tired eyes. It refreshes the mouth, hardens the gums, whitens the teeth, and gives a tonic effect to the bath.

AND MY KITCHEN

Salt sprinkled in the pan before putting fat prevents splashing when frying meat—Salt under baking pans in the oven will prevent their scorching on the bottom. Pudding will cool more quickly, and butter may be kept hard, if the container is placed in a dish of cold water to which a quantity of salt has been added. A tiny pinch of salt added to fresh milk will keep it fresh much longer—Eggs may be kept a long time by packing them in salt—Shells and drains can be kept clean from grease and disagreeable odors by pouring hot salt brine through them once a week—Salt and turpentine restore the original whiteness to enameled bath tubs and wash bowls—Ants can be driven out of the house, many insect pests eradicated and weeds killed through the use of salt water. Carpet moths can be eliminated by sifting dry salt over the carpet or rug before cleaning. Salt melts ice on the sidewalks too.

Household Hints

If cottons searh while ironing, plunge into cold water immediately and allow to stand for 24 hours—the marks will disappear.

If it is necessary to paint steps while they are in use, paint every other step and use the ones in between until the first half are dry, when the other half can be painted.

To keep china plates from scratching each other, slip paper dollies between the plates when you put them away.

Your used fats are urgently needed by the government to make gunpowder and medicine. Please turn them in promptly to your meat dealer.

When adding flour and liquids alternately to cake batters, always begin and end with flour.

TOPS FOR YOUR HAIR
Give it an extra style,
with fragrant dressings—only \$2.

CARMEN
BRAND
TEA

Admirals may be admirable, but that isn't where the word comes from. It comes from an old Arabic word "amir" meaning "commander." That's what the Admiral is, the top-ranking officer in the Navy. Top-ranking officer with our Navy men is Camel—the favorite, too with men in the Army, Marines, and Coast Guard, according to actual sales records from their service stores. Camels are a top-ranking gift, too. And though there are Post Office restrictions on packages to overseas Army men, you can still send Camels to soldiers in the U. S., and to men in the Navy, Marines, and Coast Guard wherever they are.

"ALL-BRAN WORKED WONDERS FOR ME!"

Says Constipation Sufferer

There's real hope for common constipation sufferers in this uncalculated letter!

"Thanks for what KELLOGG'S ALL-BRAN has done for me. I'm 71 years old, but I feel like a young man again. I started eating KELLOGG'S ALL-BRAN every morning. I lost my constipation without any trouble. I can't praise ALL-BRAN enough. It sure works wonders for me." — J. C. Cook, Box 114, Fairport, Ill.

How can such amazing results for thousands be explained? Scientists say it's because KELLOGG'S ALL-BRAN is one of Nature's most effective sources of certain "cellulose" elements, lack of which in the diet is a common cause of constipation. They help the friendly colonic flora stuff up and prepare the colonic wastes for easy natural elimination. KELLOGG'S ALL-BRAN is not a purgative. Doesn't "sweep you out." It's simply a gentle-acting, "regulating" food.

If you have constipation of this type, eat KELLOGG'S ALL-BRAN regularly with milk and fruit, or mixed with other cereals. Drink plenty of water. See if you, too, don't get real help! Insist on genuine ALL-BRAN, made only by Kellogg's in Battle Creek.

RHEUMATIC PAIN

Don't get off getting C-223 to relieve pain of muscular rheumatism and other rheumatic pains. Caution: Use only as directed. First bottle purchase price back if not satisfied. See and \$1.00. Today, buy C-223.

How To Relieve Bronchitis

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel even laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must try the way it quickly clears the cough or you get your money back.

LIGHTER Complexion
Dr. FRED FALMER'S SKIN WHITENER

WHY BE A SLAVE TO HARSH LAXATIVES?

Simple Fresh Fruit Drink Has Restored Millions to Normal Regularity!

Here's a way to overcome constipation without harsh laxatives. Drink juice of 1 Sunkist Lemon in a glass of water first thing on arising.

Most people find this all they need—stimulates normal bowel action day after day! Lemon and water is good for you. Lemons are among the richest sources of vitamin C, which combats fatigue, helps resist colds and infections. They supply valuable amounts of vitamins B₁ and P. They pep up appetite. They alkalize, aid digestion. Lemon and water has a fresh tang too—clears the mouth, wakes you up, starts you going. Try this grand wake-up drink 10 mornings. See if it doesn't help you! Use California Sunkist Lemons.

SNAPPY FACTS ABOUT RUBBER

Authorities expect that Latin-American countries will contribute 35 to 40 thousand tons of crude rubber during 1944. In 1941 the U. S. and Canada used 200,000 tons of rubber, and current requirements are larger.

The Quartermaster Corps has developed a rubber and canvas Army boot for tropical wear. The sole contains both crude and reclaimed rubber, and is not affected by jungle moisture and soil chemicals.

Over seven billion passengers were transported by motor bus in 1942, compared with about four and a half billion in 1940, reflecting the curtailment of passenger car use by rubber conservation.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D., Of The Moody Bible Institute of Chicago. Released by Western Newspaper Union.

Lesson for March 26

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

THE SACREDNESS OF LIFE (TEMPERANCE LESSON)

LESSON TEXT: Gen. 1:27, 28; Matt. 12:11, 12; Rom. 14:19-21; 1 Cor. 6:19, 20. GOLDEN TEXT: Know ye not that your body is the temple of the Holy Spirit?—1 Corinthians 6:19.

A high and ennobling concept of the value of human life is an important element in Christian thought. The Word of God always regards human life as sacred—a gift of God to be used for His glory, never to be exploited for gain or destroyed at will.

This important truth needs constant reiteration in a social order which is so shortsighted and sinful that it will permit the destruction of man through the sale and use of alcoholic beverages. The lesson has a real application to the liquor problem.

I. God Honored Man (Gen. 1:27, 28).

It should be of primary interest and concern to discover what the Maker and Lord thinks of His creation, man. He knows what is in man and if we learn of Him we may come to evaluate man aright.

1. He Made Him in His Own Image (v. 27). The teaching of Scripture makes it clear that this image was not anything material or physical, but rather a likeness of personality. As God is a personal, moral, intelligent Being, so is man.

How tragic then that man will not only reject that grace, but will subject his God-given personality to the narcotic and destructive influence of alcohol.

Not only did God make man in His image, but—

2. He Gave Him Power and Authority (v. 28).

This is the very thing man is seeking, and here we learn that the only One who had a right to give it—God Himself—bestowed it upon man.

Having dominion over the entire earth, man is in a place of responsibility, not only for his own moral choices, but for the welfare of others. Think that over as it relates to the ever-growing liquor problem.

II. Man Should Honor Man (Matt. 12:11, 12; Rom. 14:19-21).

Since God has such a high regard for man, it is clear that we ought to have real respect for our fellow man. "Man's inhumanity to man" is often declared to be the world's greatest difficulty. It would not be so if God's Word were obeyed. Man would learn that—

1. He Should Recognize His Fellow Man's Value (Matt. 12:11, 12).

Property values are so well to the front in the thinking of all, that it requires no argument to convince anyone that a sheep that has fallen into a pit should be rescued. But the sad thing is that the man who would run for help to rescue a sheep in an interested glance at the drunk in the gutter, or lose a few minutes sleep over the girls who are going to hell by way of our countless taverns.

The plain fact is that we do not regard a man as of more value than a sheep. Many a neighborhood has been stirred to angry reprisal over the poisoning of a pet dog, but will let the liquor dealer poison men and women—all for a small license fee.

The man who loves his fellow man knows that—

2. He Should Sacrifice for His Fellow Man's Good (Rom. 14:19-21).

Paul here states a high principle of Christian consideration. He makes clear that man is his brother's keeper and must do nothing which will tempt his brother to do that which will harm him.

III. Man Should Honor Himself (1 Cor. 6:19, 20).

Man is told not to think more highly of himself than he ought to think (Rom. 12:3), and that is good counsel. But at the same time he ought to think as highly of his own being as God does. He should recognize that—

1. His Body Is the Temple of the Holy Spirit (v. 19).

The Bible teaches that the moment a man believes in Christ his body becomes the dwelling place of the Holy Spirit. That means that he must never take that body in any place (such as a tavern) to do anything or partake of anything (like intoxicants) which would dishonor the Holy Spirit of God.

2. He Belongs to God (v. 20).

Men have been given a free will by God. He has given them the right of self-determination. That does not abrogate God's right to man's devotion and love.

The fact that we are free to choose should make us the more determined that the right choice should be made—that we shall glorify God in our bodies, which are His.

Does it take even a moment's thought to tell us that the violation of that body (and every bit of scientific evidence proves it to be a violation) by the use of alcohol is not only disobedient, but sinful rebellion against God.

Who's News This Week

By Delos Wheeler Lovelace

Consolidated Features.—WNU Release.

NEW YORK.—The Nazis talk of scrambling out of Finland to safety in Norway. But maybe they will. But their very escape will bring them closer to the day when they must scramble out of Norway, too, and when their Polizeiführer Wilhelm Reideiss must end his dark, savage rule there, he and the renegade Jonas Lie.

The story of Reideiss is hard to get at. Revealed details are few and most of them from sources which, to be mild, are unfriendly to all Nazis. But when the bias is winnowed out, the scanty record is cheap when it is not ugly.

He was born in 1900 at Heinsberg, close by the Dutch border and raised in a decent, church-going family. Dull in school, he was worse when apprenticed to an electrical engineer. Fellow workers in the shop rounded on him quickly for habits which were later alleged against the murdered Ernest Rohm. These habits, however, did not slow up promotion after he joined the Nazis.

First he was in the Hitler-Youth movement. Then he drummed up rookies for the labor camps. Then he swung a blackjack in the Nazi militia. At last he hit the jackpot. He was accepted in the S.S., Hitler's own Elite Guard. This corps of mailers gave him work right up his alley. He got to be a regional group leader, and then was rewarded first with membership in the Prussian parliament and then with a seat in the Reichstag.

In Norway, at 43, he holds the rank of police general. And there, according to Underground reports, his Gestapo command includes a select inner circle of troopers having records and habits like his own.

THE quiescent Jonas Lie is Reideiss' native head of police. Lie's countrymen call him Judas. The poet, labeled Judas of Norway.

His is one of the classical names in Norway, worn once by one of the country's fine poets. It is a grandson of the poet who has sold out to the Nazis. Of his rule, and of Reideiss' super-rule the Swedish newspaper Arbetaren said:

"One feels ashamed to belong to the human race when one hears of such horrors. No beast would be as bloodthirsty as these men who revel in torture." And the Svenska Dagbladet, sometimes sympathetic to the Nazi cause, added: "Only a categorical denial (of these charges) by the German authorities could help here. We have waited in vain for such denial."

Neither Berlin nor Reideiss ever said "Aye" or "No" but a year ago Reideiss moved to fasten his condemned rule more securely on the land by building up a Norwegian copy of the S. S. which had trained him so well. He called it the S. S. Norge. He wanted 500 Norwegians, Aryans only, who would obey orders. He settled for 200. He finally found that many believers in Germany's ideal, although they were not all truly quiescent. Many of them despised Quisling.

THE American navy races eastward across the Pacific with its big guns pounding like puppet thrives on Thor's hammer and it is no wonder that Jose Paciano Laurel, Japan's puppet, hurriedly declares a state of national emergency in his mutinous Philippines.

Laurel is the callous able traitor who chummed up with the Japanese long before it seemed they had a chance at all in the islands. Their way of life charmed him in contrast to that of his own people, and of the American way of life which he studied at Yale university.

At Yale his own way of life charmed nobody. One professor, lately recalling his campus performances, said he was a perfect rotter. Another named the description with a story.

The story is that Laurel came to Yale in 1920 for a post-graduate degree of doctor of jurisprudence. There was a mix-up and what Laurel got was a diploma calling him a doctor of civil law, a far higher distinction which he didn't deserve by half. The university noted the slip, and asked Laurel to trade but he said, "By no means!"

According to sound reports Laurel sported the phoney sheepskin for all to see on the wall of his Manila office.

Since September Laurel has held another phoney distinction. He has been president elect of the republic Japar, schemes to establish in the Philippines as soon as order has been established. It can hardly be classified as a safe office. Nine months ago, when Laurel was only a puppet administrator, he was shot twice as a Manila golf course. The man who pointed the rifle was never found.

PATTERNS SEWING CIRCLE

1935 1-8 yrs.

Barbara Bell Pattern No. 1935 is designed for sizes 2, 4, 6, 8, 10 and 12 years. Size 4, pinfore, requires 2 1/4 yards of 35-inch material; blouse, 1 1/4 yards.

Due to an unusually large demand and current war conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers.

Send your order to:

TWENTIETH CENTURY CLUB
The handsome home of Mrs. R. A. Clanton was open to Twentieth Century Club members and special guests on Tuesday afternoon and an interesting hour was spent listening to the book reviews by two of the club's talented members. Mrs. John Rundle presented to the club "Freedom, Forgotten and Remembered," by Kuhn, a German who is now a teacher at University of North Carolina. Her introduction of the author and his wonderful book made a profound impression on those privileged to be present. Mrs. Ethel Thiel, substituting for Mrs. F. A. Stacy, gave the book, "The Story of Dr. Wassell," by Hilton which told of the experiences of an American doctor who saw service in China as a missionary, and later as a medical officer in the foreign service of his country. The book so clearly given that one could imagine the daily life unfolding hour by hour of this wonderful doctor from Arkansas, whose patience and skill proved a mighty source of power in the early days of war in the Pacific.

At the conclusion of the program the hostesses, assisted by Mrs. Clanton's daughter, Mrs. Harry Burkley, served a beautiful plate containing brick ice cream, white cake and salted nuts in a tiny Easter basket.
Non-member guests present included Mrs. Carrie Clanton, Miss Mary Knox, Mrs. Darrow Horn, Mrs. Smart, Misses Lucile Owen and Gayle Doggett.
Mrs. R. L. Vandiver substituted as secretary in the absence of Mrs. H. J. Ray.

Miss Lillian York, student at the University of Mississippi, spent the week end at home with her parents, Mr. and Mrs. Frank York. She was accompanied home for a week end visit by two college chums, Misses Ann Powell and Suzanne Harris.
